LinkedIn: [linkedin.com/in/abdelmonaiemfarouq25](https://www.linkedin.com/in/abdelmonaiemfarouq25) Location: Makkah, Saudi Arabia

PROFESSIONAL SUMMARY

Power & Control Engineer with experience in classic control, PLC systems, instrumentation, MV/LV distribution, electrical maintenance, and site execution across industrial, petroleum, and medical facility environments. Ready for projects in Makkah, Jeddah, and Madinah. Combines field execution discipline with operation and maintenance reliability.

CORE EXPERTISE

Power Systems

MV/LV distribution panels, load schedules, preventive maintenance, and system troubleshooting.

Control & Automation

PLC systems, classic control circuits, VFDs, soft starters, instrumentation and field devices.

Electrical Design

AutoCAD shop drawings, load calculations, single-line diagrams, technical specifications review.

Site Execution

Site supervision, testing and commissioning, troubleshooting, coordination with contractors and consultants.

PROFESSIONAL EXPERIENCE

Electrical & Control Systems Specialist

Al Najm Al Thaqib Co. — Saudi Arabia

2025 – Present

- Engineering work in electrical and control systems for operation and execution projects.
- Follow-up on control panels, distribution boards, site supervision, and technical coordination.

Electrical & Control Engineer

Gulf Merad Petroleum Co. — Saudi Arabia

2024 – 2025

- Petroleum facility experience covering control, instrumentation, maintenance, and auxiliary systems.
- Electrical troubleshooting, panel maintenance, and control system support in industrial environment.

Electrical Engineer

Naya Tower Medical Complex — Saudi Arabia

2023 – 2024

- Control, maintenance, and electrical system follow-up in a medical facility requiring high reliability.
- Coordination with facility management teams on power distribution and backup systems.

Electrical, Control & Contracting Experience

2015 – 2023

- Accumulated experience across industrial, contracting, and maintenance sectors.
- Control systems, panels, field equipment, and site work execution.

EDUCATION & CREDENTIALS

B.Sc. in Electrical Engineering

Helwan University, Egypt

2018

Industrial Technical Institute

Electronics & Control Systems

1994

CERTIFICATIONS & MEMBERSHIPS

Saudi Council of Engineers — Associate Member

Valid Saudi Driving License

Egyptian Engineers Syndicate — Active Member

Valid International Driving License

TECHNICAL SKILLS

Power & Control

Classic Control Strong

PLC Systems Good

Instrumentation Good

Electrical Maintenance Strong

Design & Execution

AutoCAD Working Knowledge

ETAP Working Knowledge

Site Execution Strong

Testing & Commissioning Good
